“ Warm sunshine, fantastic beaches, a safe atmosphere and many leisure activities : all these things attract students who want to study English to come to Malta. The main reason I came to Malta was to prepare for the Cambridge FCE exam, so quality of teaching was my main consideration. I found it very helpful preparing for the exam here. Firstly, IELTS have teachers who are very experienced in preparing students for English examinations. Secondly, I was gently introduced to a wide range of task types relevant to the FCE exam. Nightlife in Malta

Nightlife in Malta is diverse and exciting with places of interest within nearly every major tourist area.

As entertainment in Malta is relatively inexpensive, there are specific areas that are great for adults aged eighteen years and over. Entrance to most major entertainment venues is reasonably priced, if not free of charge.

Within the St. Julian's area lies Paceville, famously known to many partygoers as the centre of Malta's nightlife. Bright and colourful lights, lively music and enthusiastic club crawlers will greet you as you arrive at one of Europe's top nightspots. With the largest

concentration of restaurants, bars and clubs in Malta, this is the ideal place for anyone who is looking for a great night out. Most establishments stay open until the early hours of the morning.

Enjoying a barbecue at Malta's beautiful beaches is also one of the most popular evening activities. Experience the mix of fireworks and village band marches which transform a night into an event when you're in the midst of a summer festa.

Teen Programme

"The greatest thing about young learners is that they bring their talents along with their zeal."

"Our philosophy at the IELS Teen Centre is to ensure that each student has fun whilst learning English. Our academic programme is specifically designed for teenagers and delivered through our team of dedicated, experienced and enthusiastic teachers. Here at IELS, we focus on developing the students' confidence and fluency in speaking English. At the end of the course each student will receive a personalised certificate as a record of their successful English language studies."

Tuition

This course has been created to meet the needs of teenagers. Teaching materials, especially designed for youth programmes, are used to improve English language abilities. The programme includes structured conversation work (role plays, discussions, debates etc.), listening and reading practice, and some written work. By the end of their stay the students can expect to have improved not only their communicative competence, through their study of 'survival' English and 'everyday' English but will have also achieved a new level of learner autonomy and confidence.

Daniel Mangani
Teens teacher

"I always look forward to teaching teenagers, as modern teaching styles and teenage energy go very well together. Young students always enjoy learning in an active and exciting manner, lessons are a great place for teenagers to express themselves and get to know one another as well as challenge themselves academically. Coming from different countries and cultural backgrounds makes learning the language more than just an academic requirement but a means of enjoying their time together and surviving both inside and outside the classroom. The greatest thing about young learners is that they bring their talents along with their zeal. Exploiting these talents creates a great vibe within the lessons with their music, art and humour. Most importantly students learn to use English in their own context. Each student has a lot to offer and to receive from the others. This is translated into a class of people learning what is important to them and passing it on in the way they know how and enjoy!"
